Our top TRENDS

Our UK design team keep a close eye on the top trends to make sure our product collections are right up to date.

Create your own luxurious bathroom to relax and rejuvenate in

If you're looking to make a style statement, then a tap with defined, angular lines is one option. Inspired by industrial environments, pair this type of tap with a minimalist bathroom to make the tap the star of the show.

Finishing touches It's easier than ever to create a bathroom bespoke to you with the finer details, such as a beautiful tap or tiles really giving your bathroom that personal touch, while also adding a "wow" factor. For Flute see page 14

Water Labels

your own bathroom with the ultimate showering experience including invigorating body jets.

Throughout the brochure you'll find the Water Label's Flow Rate Indicators to help you find out which products are registered and what the flow rates are. A green rating indicates higher water efficiency. A red rating indicates higher water usage, but gives you a greater flow from your taps and showers for a faster filling sink and more invigorating showering experience.

PLANTS AND FLOWERS are an easy way of bringing some colour into your bathroom. Choose ones that thrive in warm, humid environments, like orchids.

Beautiful in simplicity BRIGHT

Based on the shape of a softened triangle, the Bright collection offers a subtle modern design which is the ideal partner for bathrooms with a square look but can work equally well with more rounded designs.

OUR WIDE RANGE OF ACCESSORIES, such as this handy basket, help keep your bathroom tidy. Visit www.bristan.com for our full range.

Modern twist on a classic design CASCADE®

A design triumph, the Cascade® collection pairs contemporary design with well-loved, traditional features. The modern, angular lines of the tap body and spout combine perfectly with the classic crosshead handles.

Claret Bristan 11

Sleek Italian-inspired design CLARET

A guaranteed hit if you're looking for sophistication, the stylish Claret collection is characterised by the unusual elongated handle and is also available in a striking combination of chrome and high-gloss white.

Dramatic and bold in design DESCENT

If you're wanting to add some drama to your bathroom, then look no further than the Descent collection with its wide spout creating a luxurious cascade effect.

Flute Bristan 15

Effortlessly charming F L U T E

For sophisticated simplicity, the Flute collection is a great choice. The gentle teardrop design makes it the perfect match for bathrooms featuring soft and curvaceous lines.

Inspired by eclectic, classic trends GLORIOUS

Subtle design details such as the flared spout and petal shaped crossheads give the Glorious collection a strong style that is versatile enough to suit both traditional and contemporary bathrooms.

Feminine flair HOURGLASS

The feminine curves of the Hourglass collection make a style statement that would look equally at home in either a traditional or contemporary bathroom setting.

Urban and futuristic PIVOT

Cool contemporary design doesn't have to mean stark and sharp.

With the Pivot collection, gorgeous modern curves and chunky handles combine to create a unique, semi futuristic look which retains a soft, timeless appeal.

Contrasting design QUBE

If your bathroom combines square and round sanitaryware, Qube is the ideal collection for you. Minimalist in design, Qube's contrasting curves and sharp edges draw the eye and capture the imagination.

Understated luxury RENAISSANCE

Definitely one for more traditional bathrooms, this collection takes inspiration from the Italian Renaissance, with intricate styling and porcelain details creating a real luxury feel.

Sail Bristan 27

Modern minimalism SAIL

Inspired by the shapes of a wind-blown sail, the contemporary Sail collection features sleek lines and bold angular handles to create a streamlined look.

Traditional and timeless TRINITY

Featuring traditional rounded crossheads, the Trinity collection works best in a classic setting. The bell shaped flare at the end of the spout distinguishes the look without losing the impact of the iconic styling.

ADD CANDLES TO YOUR bathroom for a soothing and calming spa-like space.

Clean and minimalist ALP

Combining clean lines and beautifully simple design, our popular Alp collection creates a smooth, minimalistic look. Drawing inspiration from modern Europe, the collection features an ultra-slim lever to add a touch of individuality.

NATURAL WOOD SHELVING and accessories help to bring warmth to the crisp, white porcelain.

Spa indulgence CHILL

The Chill collection brings a touch of spa indulgence into the home with the distinctive spout following a swan neck arc, inspired by infinity pools and the feeling of total relaxation.

Urban beauty EXODUS

Inspired by the popular industrial trend, the Exodus collection takes contemporary cool to a new level. The original design is reinforced by the unusual front facing water outlet which produces a striking waterfall effect.

Ahead of the curve ORB

Stay ahead of the design curve with the Orb collection of showers. Their soft, organic curves result in a subtle look that has the feeling of a bespoke bathroom design.

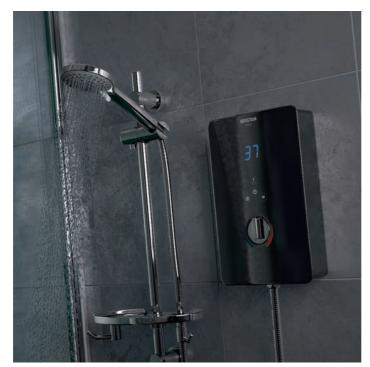

Striking in simplicity TRIA

The graceful, circular controls of the Tria shower collection mean the products have wide appeal and can work well in practically any bathroom design.
